In accordance with 37 C.F.R. § 1.705(b) applicants hereby request reconsideration of the patent term adjustment for the above referenced application. The issue fee is due April 6, 2004. Enclosed herewith is a check in the amount of \$200, the fee set forth in 37 C.F.R. § 1.18(e). Any deficiency or overpayment should be charged or credited to Deposit Account No. 50-1266. Below is a statement setting forth the facts pertinent to this request.

(1) The correct term adjustment under § 1.702 should be **281 days**, not 277 days as indicated in the paper mailed January 6, 2004, entitled Determination of Patent Term Adjustment under 35 U.S.C. §154(b).

(2) The application was filed on November 13, 2001. On December 28, 2001, applicants filed a Supplemental Preliminary Amendment with a Drawing Change Request, new

Formal Drawings and an Information Disclosure Statement. These items were received by the USPTO on January 22, 2002, as evidenced by the copy of the date-stamped returned postcard.

(3) On January 8, 2001, applicants received a Notice of Omitted Items dated December 31, 2001. The notice specifically states that any response due must be filed within two (2) months of the date of the notice. A copy of the notice is enclosed. The response due date was February 28, 2002. Applicants timely filed their response on February 14, 2002, and was timely received by the USPTO on February 27, 2002, as evidenced by the copy of the date-stamped returned postcard.

(4) On January 9, 2004, applicants received the Notice of Allowance (NOA) dated January 6, 2004. The NOA included the document entitled Determination of Patent Term Adjustment under 35 U.S.C. §154(b) with a Patent Term Adjustment (PTA) of 277 days. On February 2, 2004, my paralegal, Denise Sheridan, spoke with Kery Fries at the USPTO regarding the PTA. He stated that our response to the Notice of Omitted Items was received 4 days after the due date of March 31, 2002. Applicants dispute this. The notice clearly states the response is due in two (2) months from the mailing date of the notice which was December 31, 2001, making the response due on February 28, 2002. Our response was received February 27, 2002, as noted in number 3 above.

The first office action was due within 14 months (January 13, 2003) of the application filing date (November 13, 2001) but was not dated until October 21, 2003. This USPTO delay resulted in a 281 day PTA. Applicants do not dispute this. The USPTO reduced this PTA by 4 days giving applicants a PTA of 277 days. Applicants believe the USPTO incorrectly calculated the PTA based on their incorrect records showing our response as received 4 days late.

(5) Applicants would also like to bring to the attention of the USPTO the formal drawings submitted on December 28, 2001. The drawings were received by the USPTO on January 22, 2002, as evidenced by the copy of the returned date-stamped postcard. In the NOA dated January 6, 2004, the examiner acknowledges the drawings as filed with the application on November 13, 2001, as being accepted. Applicants respectfully request that the drawings submitted and received on January 22, 2002, be acknowledged by the examiner with a supplemental NOA. Applicants do not believe the drawings need to be resubmitted. If the drawings are required again then applicants believe that no PTA should be held against them for filing the drawings after allowance.

(6) The application is not subject to a terminal disclaimer.

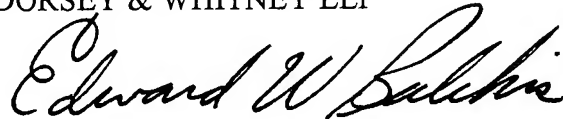

(7) There were no circumstances constituting a failure to engage in reasonable efforts to conclude prosecution or examination of the application as set forth in 37 C.F.R. § 1.704.

(8) In the paper mailed on January 6, 2004, the determination of term adjustment incorrectly states that a 277 day adjustment will be printed on the front page of the patent. As outlined above, the correct term of adjustment should be 281 days, which is the 281 days for the delay in the first office action.

Please correct the notice of patent term adjustment accordingly.

Respectfully submitted,

DORSEY & WHITNEY LLP

NOTICE OF OMITTED ITEM(S) IN A NONPROVISIONAL APPLICATION

FILED UNDER 37 CFR 1.53(b)

A filing date has been accorded to the above-identified nonprovisional application papers; however, the following item(s) appear to have been omitted from the application:

- Figure(s) 9 & 10 described in the specification.

I. Should applicant contend that the above-noted omitted item(s) was in fact deposited in the U.S. Patent and Trademark Office (USPTO) with the nonprovisional application papers, a copy of this Notice and a petition (and \$130.00 petition fee (37 CFR 1.17(h))) with evidence of such deposit **must** be filed within **TWO MONTHS** of the date of this Notice. The petition fee will be refunded if it is determined that the item(s) was received by the USPTO.

II. Should applicant desire to supply the omitted item(s) and accept the date that such omitted item(s) was filed in the USPTO as the filing date of the above-identified application, a copy of this Notice, the omitted item(s) (with a supplemental oath or declaration in compliance with 37 CFR 1.63 and 1.64 referring to such items), and a petition under 37 CFR 1.182 (with the \$130.00 petition fee (37 CFR 1.17(h))) requesting the later filing date **must** be filed within **TWO MONTHS** of the date of this Notice.

III. The failure to file a petition (and petition fee) under the above options (I) or (II) within **TWO MONTHS** of the date of this Notice (37 CFR 1.181(f)) will be treated as a constructive acceptance by the applicant of the application as deposited in the USPTO. **THIS TWO MONTH PERIOD IS NOT EXTENDABLE UNDER 37 CFR 1.136(a) or (b).** In the absence of a timely filed petition in reply to this Notice, the application will maintain a filing date as of the date of deposit of the application papers in the USPTO, and original application papers (*i.e.*, the original disclosure of the invention) will include only those application papers present in the USPTO on the date of deposit.

In the event that applicant elects not to take action pursuant to options (I) or (II) above (thereby constructively electing option (III)), amendment of the specification to renumber the pages consecutively and cancel incomplete sentences caused by any omitted page(s), and/or amendment of the specification to cancel all references to any omitted drawing(s), relabel the drawing figures to be numbered consecutively (if necessary), and correct the references in the specification to the drawing figures to correspond with any relabelled drawing figures, is required. Any drawing changes should be accompanied by a copy of the drawing figures showing the proposed changes in red ink. Such amendment and/or correction to the drawing figures, if necessary, should be by way of preliminary amendment submitted prior to the first Office action to avoid delays in the prosecution of the application.

A copy of this notice MUST be returned with the reply.
